

When passing bicyclists, **GIVE 3 FEET**

Between the end of the side view mirror and the end of the bicyclist's handlebar. It's the law!

Bicyclists:

- Avoid the door zone near parked cars
- Be predictable and use hand signals
- Ride with a white front headlight
- Stop at red lights and stop signs

Drivers:

- Pay attention and avoid driving distractions
- Slow down near bicyclists
- Look for bicyclists before opening your car door
- Check your blind spot for bicyclists before turning right
